Verification and Performance Examination Report

Mr. Donald Woodley, CFA
Woodley Farra Manion Portfolio Management, Inc.

We have verified whether Woodley Farra Manion Portfolio Management, Inc. (the “Firm”) has, for the periods from January 1, 2017 through December 31, 2020, established policies and procedures for complying with the Global Investment Performance Standards (GIPS®) related to composite and pooled fund maintenance and the calculation, presentation, and distribution of performance that are designed in compliance with the GIPS standards, as well as whether these policies and procedures have been implemented on a firm-wide basis. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. We have also examined the Firm’s Core Value Equity Composite for the periods from January 1, 2017 through December 31, 2020.

The Firm’s management is responsible for its claim of compliance with the GIPS standards, the design and implementation of its policies and procedures, and for the accompanying Core Value Equity Composite’s GIPS composite report. Our responsibilities are to be independent from the Firm and to express an opinion based on our verification and performance examination. We conducted this verification and performance examination in accordance with the required verification and performance examination procedures of the GIPS standards, which includes testing performed on a sample basis. We also conducted such other procedures as we considered necessary in the circumstances.

In our opinion, for the periods from January 1, 2017 through December 31, 2020, the Firm’s policies and procedures for complying with the GIPS standards related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been, in all material respects:

- Designed in compliance with the GIPS standards, and
- Implemented on a firm-wide basis.

A verification covering the periods from November 1, 1995 through December 31, 2016 was performed by another verification firm, whose report expressed an unqualified opinion thereon.

Also, in our opinion, the Firm has, in all material respects:

- Constructed the Core Value Equity Composite and calculated the Core Value Equity Composite's performance for the periods from January 1, 2017 through December 31, 2020 in compliance with the GIPS standards; and
- Prepared and presented the accompanying Core Value Equity Composite's GIPS composite report for the periods from January 1, 2017 through December 31, 2020 in compliance with the GIPS standards.

A performance examination of the Firm's Core Value Equity Composite covering the periods from November 1, 1995 through December 31, 2016 was performed by another verification firm, whose report expressed an unqualified opinion thereon.

This report does not relate to or provide assurance on any specific performance report of the Firm other than the Firm's accompanying Core Value Equity Composite's GIPS composite report, or on the operating effectiveness of the Firm's controls or policies and procedures for complying with the GIPS standards.

*The increase in the number of accounts from year-end 2018 to year-end 2019 is partially attributable to a change in portfolio accounting systems and how accounts are grouped for composite purposes. Under the old methodology the number of accounts presented for year-end 2019 would have been 600.

Core Value Equity Composite The Core Value Equity Composite is composed of fee paying fully discretionary accounts and for comparison purposes is measured against the Russell 1000 Value and the S&P 500 indices. The portfolio is constructed of common stocks of larger publicly traded companies. The portfolio emphasis is on owning reasonably valued stocks. The minimum account size for this composite is \$200,000. Prior to January 1, 2005, the minimum account size was \$75,000. Prior to June 2, 2016 the portfolio was known as the Value Equity Composite and was renamed to be more consistent with the familiar name used by firm personnel and clients.

The Core Value Equity Composite was created December 31, 1995. Its inception date is October 31, 1995.

Woodley Farra Manion Portfolio Management, Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Woodley Farra Manion Portfolio Management, Inc. has been independently verified for the periods November 1, 1995 through December 31, 2020.

A firm that claims compliance with the GIPS® standards must establish policies and procedures for complying with all the applicable requirements of the GIPS® standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS® standards and have been implemented on a firm-wide basis. The Core Value Equity Composite has had a performance examination for the periods November 1, 1995 through December 31, 2020. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Woodley Farra Manion Portfolio Management, Inc. is an independent registered investment adviser. The firm maintains a list of composite descriptions, which is available upon request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Beginning 1/1/2012, wrap accounts are included in the composite and pure gross returns are shown as supplemental information. Pure gross returns for wrap fee accounts are gross of all fees and transaction costs. Pure gross returns for non-wrap accounts have been reduced by transaction costs incurred. "Composite Net" returns are net of all fees and are calculated using the fees actually incurred. "Composite Wrap" net returns are calculated using the highest total wrap fee charged of 3.0% applied monthly. Wrap fee accounts pay an asset-based fee that includes all charges for included services, such as: trading costs, portfolio management, custody, and other administrative services. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Composite dispersion and three-year annualized ex-post standard deviation are calculated using gross of fee returns. Policies for valuing investments, calculating performance, and preparing GIPS® Reports are available upon request.

The standard investment management fee schedule for direct accounts for the composite is 1.25% on the first \$500 thousand, 1.00% on the next \$500 thousand, 0.75% on the next \$2 million, and 0.50% on amounts over \$3 million. The standard institutional investment management fee schedule for the composite is 0.90% on the first \$1 million, 0.70% on the next \$2 million, and 0.50% on the next \$2 million. Actual investment advisory fees incurred by clients may vary. Effective 1/1/12, the Core Value Equity Composite was re-defined to include wrap accounts that are invested to the same strategy as those non-wrap accounts included in the composite in order to show a more complete representation of accounts managed to the same strategy. Wrap fee accounts may be subject to additional fees charged by the individual wrap sponsors. Wrap fee schedules are available upon request from their respective wrap sponsors and range up to 3% annually.

The equity segments of balanced portfolios are included in this composite if they meet the composite inclusion criteria and are managed separately with their own cash balances. This is determined based upon the client's investment objectives. Carve-outs comprised the following percentages of composite assets at year-end: 9.28% in 2010, 16.45% in 2009, 11.67% in 2008, 12.87% in 2007, and 11.46% in 2006.
